

AERO

FICHA TECNICA GENERAL

Acuflex PET
FIBRA DE POLIESTER

El panel Acústico PET se caracteriza por ser extremadamente resistente, ligero y suave al tacto. Está fabricado con fibras 100% PET, de las cuales el 60% provienen de botellas recicladas, 100% reciclables e ignífugas. Hecho de desechos plásticos pensando en un futuro ecológico.

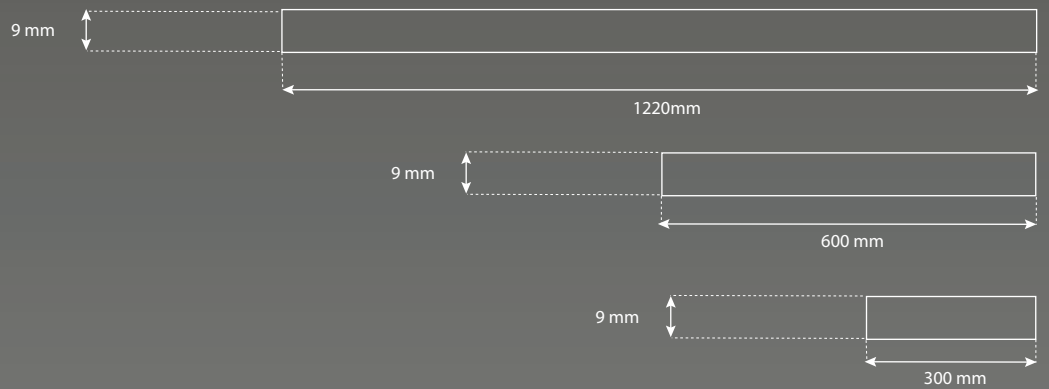

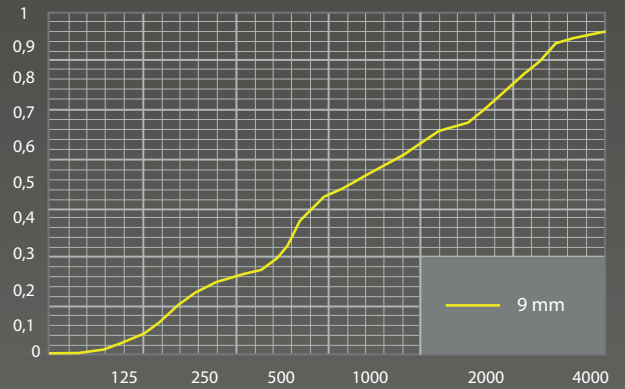

Características LINEA AERO

Coeficientes de absorción

Modelo	Espesor	125 Hz	250 Hz	500 Hz	1000 Hz	2000 Hz	4000 Hz
PET	9 mm	0,00	0,05	0,22	0,49	0,71	0,94

Curvas de absorción

15 Colores DISPONIBLES

hidrofóbico

ignifugo

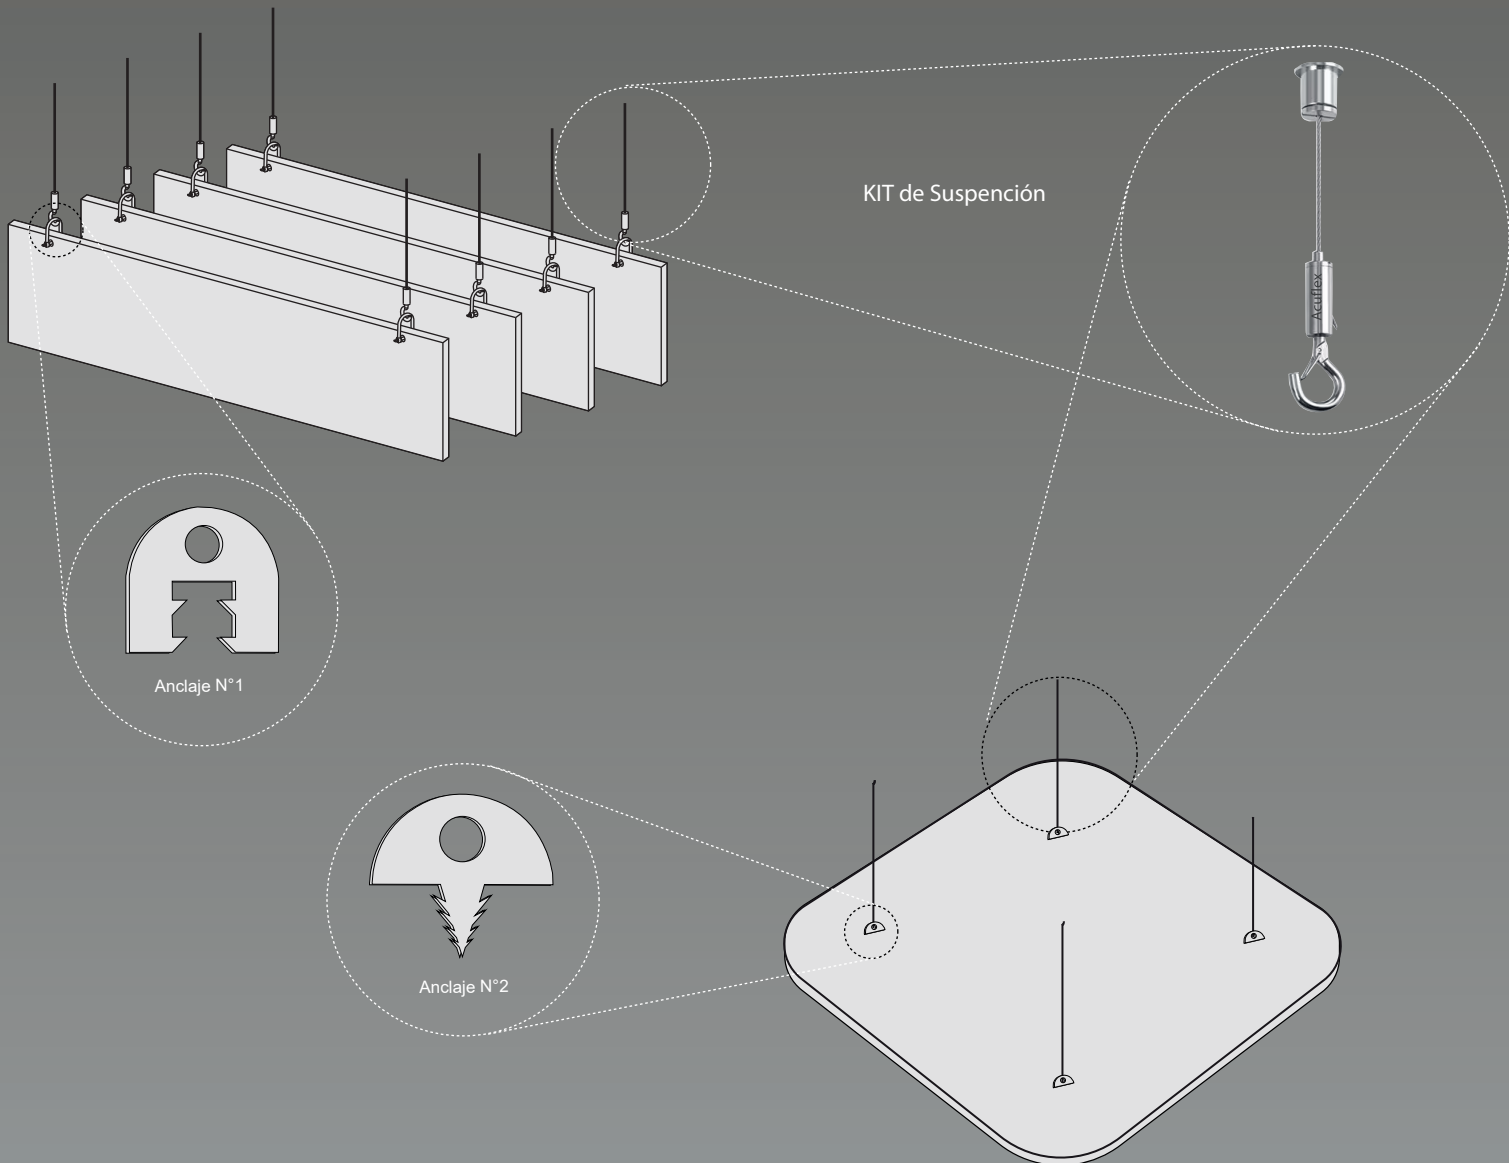

Impermeabilizante

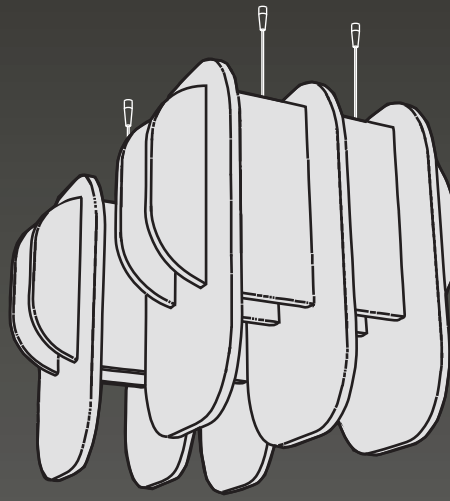

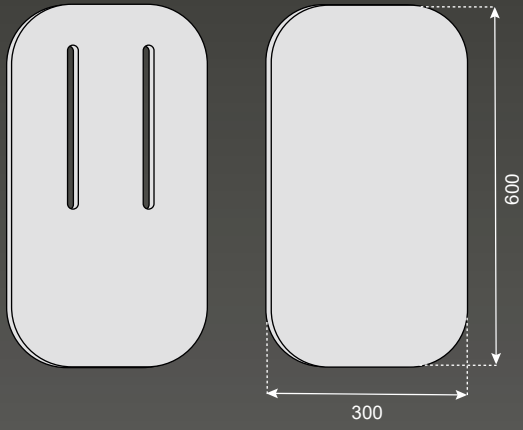

KIT SUSPENSIÓN Acuflex

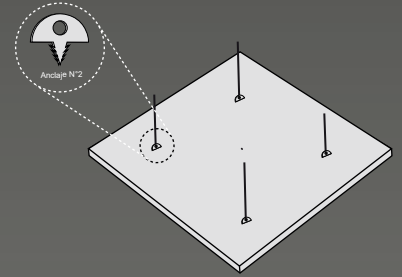

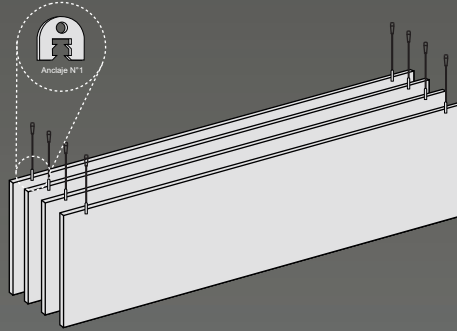

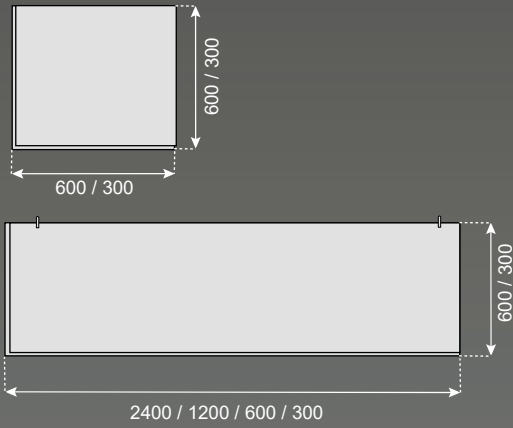

Cantidad: 2 UNI.
Distancia MAX. Cable: 1mts.
Espesor: 9.8mm.
Resistencia max: 50kg .

La línea Aero se puede instalar utilizando nuestro kit de suspensión.
La colocación de estos kits es simple y permite una instalación rápida y eficiente.
